# About Traded Services Online

Selling and tracking many different services, sold to different schools at different times of the year, is complex and time consuming. Traded Services Online is an online directory of services that enables organisations including local authorities and multi-academy trusts to improve the efficiency with which they market, sell and track their services.

Automated notifications and dashboards for generating sales

A full audit trail and easy reporting on uptake and income

Familiar online shopping basket allowing schools to build unique packages

Automatic emails and reminders enabling easy interaction with applicants

## Benefits of Traded Services Online

### Better market your services

Generate sales and increase uptake

### Centralise your marketplace

A single, secure portal for customers to purchase, review and renew orders

### Provide a safe payment system

Quickly and securely take online payments and generate invoice reports

### Easily connect with stakeholders

Prompt continued engagement using automated notifications and updates

### Evaluate sales

Produce meaningful sales reports in an instant

### Facilitate flexible working

Easily access your administrative system on the go

### Save time

Link up with your existing systems for easy use and delivery
