

Don't just take our word for it...

“ Suffolk Learning and Improvement Service is building on the success of CPD Online by working closely with WebBased to extend learning opportunities for schools through a new Suffolk Learning website. Early priorities include electronic newsletters for Headteachers and Curriculum Leaders linked to key documents and teaching resources and an effective practice database.

The online resource will sit alongside the range of training and CPD already offered through WebBased's system and a new Expertise Directory which helps schools find appropriate external support. ”

- Karen Bainbridge, Project Manager (CPD Online), Suffolk County Council

“ The move to CPD Online by Camden's Training & Development Service (TDS) has been very successful. The new online system was rolled out to all staff in Camden's Children, Schools and Families and Adult Social Care workforce.

We are very pleased to report that 95% of users have moved from the former paper-based application system to TDS-Online and that there has been a perceived increase in training and development uptake. ”

- Gillian Tilbrook, Head of Service, Camden TDS

“ We have over 1800 users since the launch in September and are regularly adding new schools through advertising the new site and continuing a weekly bulletin to CPD leaders. Support from WebBased for our list of queries has been prompt, courteous and professional. We appreciate your ongoing support to build a system that is becoming increasingly bespoke. ”

- Liz Townend, CPD and Curriculum Team Leader, South Gloucestershire County Council

Our Modules

CourseFinder

An online course directory that is always up to date

Advertise and increase course take up

Courses are available direct to your target audience with users able to subscribe to new course email alerts.

Save time & resources with online course booking

Users request places online with bookings authorised by Line Managers. All paper communications are replaced with emails & texts.

Finance and Audit

Provide CPD cost effectively

Expected costs & profit and loss

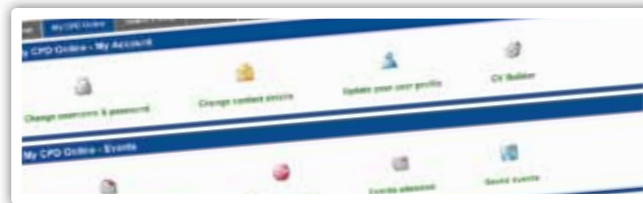

Add a basket of expected costs for course venue, catering, tutor, resources etc, which in turn generates your event profit and loss reports.

Online statements save time for your users

Line Managers can access detailed financial reports for their establishment or department at any time. Invoice and journal reports can be downloaded centrally.

ePDR

A Professional Development Record for every user

Everything in one place

Past and future course attendance is tracked automatically with access to handouts, certificates and pre course material in one place.

Personalised course recommendations

Users create a profile of their interests or training they must do. Courses that match their profile are automatically emailed to them.

Evaluations and Impact

Track the quality and effectiveness of CPD

Monitor quality with end of course evaluations

Reports automatically summarise end of course evaluations with data available to Tutors, Line Managers and the LA.

Measure impact

Participants are invited after 3-6 months to reflect on the impact each CPD event has had on their working practices.

SLA e-Store

Easily advertise and trade your services online

Transform the way you market your services

Reach a wider audience and increase revenue by advertising and selling services online including courses, SLAs and consultancy.

Anytime access for Schools and Settings

Your customers can find and order your services online, create bespoke packages and subscribe to automatic renewals.

Governors Online

Supports the management and training of school governing bodies

Offer training and track terms of office

Manage and record governor details in one place including terms of office, appointments and vacancies, contact details and communications.

Powerful tools for Clerks

Clerks can access details of their governing body, committees, meeting minutes and track professional development.

e-Learning Platform

Upload, advertise and manage e-Learning

Faster delivery and lower costs

Provide e-Learning for your entire workforce and monitor progress.

Blended Learning pathways

Ensure mandatory training is completed, offer optional modules and deliver e-Learning to new customers at any time.

“ Used by over 300,000 users in over 40 councils ”

Features and Benefits

Always up to date

Any changes are reflected online immediately with participants automatically informed.

Time and Resource Saving

From online course booking to automatic emails and texts CPD Online saves time, resources and money.

Participants

Can always access their own CPD records from anywhere.

Improve Performance Review

Having information together in one place enhances Performance Reviews.

Customisable

Own design and implementation ensuring integration with existing systems and local needs.

Line Managers

Can access reports for colleagues at any time.
